Overseas project record

YW-AFS-2026-01 - V1.0 - Effective 8 November 2026

Keep the agreed legal roles, delivery history and commissioning baseline together for future diagnosis.

A. Project & compliance

Project / country / city	
Customer legal entity	
Importer of record: name / address	
Authorised representative (if applicable)	
Incoterm / named place / contract number / date	
Applicable product regimes / conformity route	
Declaration reference / issue date	
Technical documentation location	
Manual language versions	
HS code / required statutory inspection	
Shipment batch / arrival date	

B. Delivery & commissioning

Unpacking inspection date / findings	
Installation mode: A / B / C	
Flushing / pressure-test completion	
Electrical / insulation-test record	
First water / initial run date	
Commissioning acceptance / signatories	
Training date / staff trained	
Warranty start / component expiry dates	

C. Initial operating baseline

Record actual values and units

Parameter	Initial value / unit	Notes / design condition
Total circulation flow		
Filter inlet / outlet differential pressure		
Heat-exchanger inlet / outlet temperature difference		
Pool water / system outlet temperature		
Geothermal well yield		
Geothermal dynamic water level		
Geothermal outlet temperature		
Water: pH / turbidity / hardness		
Water: iron / manganese / chloride		
Water: mineralisation / sand content		

YUANWANG · Overseas After-Sales Service Policy · V1.0 · 8 November 2026. Retain signed records with the project contract.
